Chicken Supper and Amateur Hour on Sat., October 24

The Ladies' Aid of the United Church will hold a chicken supper and a Major Bowes Amateur Hour Saturday, October 24th, 1936.

The supper will be served in the Social Credit Hall from 5:30 to 8 p.m. Adults 25c, children 15c.

The Major Bowes Amateur Hour will be in the School Auditorium at 8:30 p.m. Admission, adults 25c, children 15c. Come and enjoy a good laugh.

BUFFALO HILL NOTES

The dance at the Buffalo School on Oct. 9th, was quite a success and a good time was had by all. Watch for the announcement of the one which will be in two or three weeks—definite date given later.

Mr. and Mrs. E. Radford, of Bethune Sask., left last week for their home after spending ten days with the latter's sister, Mrs. J. R. Wyatt.

The Altar Society held their regular meeting at the home of Mrs. McInnis on Tuesday afternoon, Oct. 13th.

Mr. Frank McInnis and the Misses Elsie and Agnes were Calgary visitors last week.

Miss M. Haig, who has spent the summer at the home of Mr. and Mrs. Walter Steiner left for Calgary last week.

MRS. P. H. COLEMAN Arrow Lodge Arrowwood

Teacher of Piano, Vocal, Theory Harmony, Counterpoint and Form. Piano class every Tuesday at 4:00 p.m. in the Arrowwood School. Pupils may enter at any period of the year.

WANTLES of purest crystal snow spreading over plain and vale, the smooth sparkling ice surface of rivers and lakes and the joyous tinkling of sleigh-bells remind one that the season for beneficial winter sports is again at hand. Other forms of recreational activities are, for the time being, quite forgotten. The toboggan, ski, skate and sled are taken from their summer storehouse and properly conditioned for the season's festivities. Children whose years scarcely

exceed the finger numerals of a hand, youths of teen age, adults of middle life and frequently those whose years are well extended follow the allotted span of life all join in the merriment of typical Canadian winter sports.

During the winter season every settled area in Canada is as easily accessible by railroad as in the summer and autumn months. Many miles of provincial highways are kept free of snow enabling the motorist to reach cities, towns and villages of international repute as winter sport centres. Nearly everywhere are natural sites for skiing, snowshoeing and tobogganing. Covered risks for hockey, skating, and curling are found in cities, towns and many smaller centres, while games such as lacrosse, football, basketball, hockey, figure skating, and curling are popular. The National Parks of Canada, Department of the Interior, Ottawa, will gladly supply information pertaining to Canada's winter sport attractions.

Central Bow Valley Interscholastic Sports Successful Event

The Interscholastic Sports Meet of Central Bow Valley was held at Gleichen last Wednesday. All events were well conducted and the competition was keen.

Gleichen won the highest number of points. Arrowwood was second and Old Sun School was third.

All winners of a 1st, 2nd, or 3rd in any event may compete at the general track meet next spring against the winners of Brooks-Bassano and Carleton Place.

Big Novelty Dance at Mossleigh, Nov. 6th

In order to raise funds for operating expenses the Mossleigh Ice Hockey Club and rink are sponsoring a Big Novelty Dance to be held in the Mossleigh Community Hall on Friday, Nov. 6th. The Roundabout Band has been engaged to supply the music. Three valuable prizes will be given away to admission ticket holders. Admission 35c a person. A good time is assured to all.

MOSSLEIGH NOTES

Mr. and Mrs. Pinkerton were visitors in Calgary on Monday.

A meeting of the teachers of surrounding schools was held on Wednesday to make final arrangements for the track meet to be held in Mossleigh on Tuesday, Oct. 20th. Teachers attending were Miss Short, Miss Six, Miss Barron, Miss Parks and Mr. Taylor.

Mr. Malcolm Taylor spent the week-end visiting in Calgary at Pine Lake.

Miss D. F. Short and Miss M. G. Short, of Hartel visited with Mr. and Mrs. G. M. Powe over the week-end.

Mr. Earl Boss spent the week-end visiting in Hartel.

United Church Notes

Sermon Subject for Sunday, Oct. 18th: "A Life Pledge"

The address is being specially prepared for young people who are cordially invited to join with the Girl Guides at this service which marks the beginning of Guide Week. The message will be just as suitable for Scouts or any others who may not belong to any organized group. All young people are cordially invited.

Don't forget the Whist and Bridge Drive Friday night.

Municipal Convention to be Held at Vulcan On Wed., Nov. 4th

Representatives from the Municipalities of Dinton, Riley, Royal, Harmony and Marquis met at Vulcan on Tuesday to discuss preparation for a district convention, which they decided to hold at Vulcan on Nov. 4th. Arrangements are under way to secure Mr. Farnell, provincial president of municipalities and Hon. Chas. Cockcroft as principal speakers. Mayor E. King of Vulcan, the M.L.A.'s and M.P.'s of the district will also be in attendance.

During the course of the meeting, municipal matters came up for discussion and the discussion and the representatives generally agreed that all municipalities were in urgent need of Dominion aid for the coming winter and in regard to the free freight rate and relief of the stock situation. As the matter now stands, the M.D. of Marquis was the only municipality represented that was in line for Dominion aid on personal relief as well as the free freight concessions. It seemed evident that the Dominion government considered the Marquis M.D. the only one classed in the dried out area and did not deem it necessary to lend to the others, which had been able to carry on through the past hard years without outside help, but who have now reached the end of their rope and will be absolutely unable to finance relief costs for the year. Every municipality is faced with a tremendous increase of relief burdens this year and if refused support, their revenue will be hopelessly inadequate.—Vulcan Advocate.

Canadian Girl Guide Week

Following the decision of the Canadian Council of Girl Guides a Canadian Girl Guide Week is to be inaugurated in October, beginning on the evening of October 17th. This week is to be observed not only as a stimulus to Guide Service and activities throughout Canada, but also as a session of Thanksgiving.

The following program is to be observed: Saturday evening Oct. 17, Dominion-wide broadcast to Guides of Canada by Lady Tweedsmuir and Mrs. H. D. Warren over Canadian Radio Commission. Sunday—Guides in uniform at local church service of their own faith. The local clergy are giving special sermons. Thanksgiving and intercession at goodwill.

Monday—International Day Tuesday—Lodge and Extension Day Wednesday—Homework and Handcraft day Thursday—Friday—Citizenship and Service days Saturday—Out of Door and Health Day.

District Bible School

The District Bible School of the Church of the Brethren will open on Monday, Oct. 19th, in the basement of the church. All those who are in any way interested in Bible Study will be welcome. We invite you to come.

Rev. W. E. Buntain, A.B., B.S.L., of Philadelphia, Penn., will be Dean of the School. Miss Grace Brubaker, A.B., will be assistant teacher.

United Church W. A. Meets at Home of Mrs. A.L. Ingraham

One of the best attended meetings of the W.A. was held at the home of Mrs. A.L. Ingraham, assisted by Mrs. McColeman. There were 30 ladies in attendance, including 6 visitors. Devotions were led by Mrs. Thorne. The various committee reports were heard and showed that a great deal of interest and effort were being put forth to make the organization a success. On behalf of the sewing committee Mrs. Liesemer asked the articles for the fall bazaar be landed in by the next morning at which time they would be displayed. Mrs. Lowndes gave the report of the committee taking charge of the supper on the night of the Amateur Program. Mrs. Keith and Mrs. Hill are taking charge of the candy booth the same night. Committees for the fall bazaar were appointed and the date set for Nov. 21st. It was decided that the sale should include the following booths: 1. Sewing and Fancy work. 2. Home Cooking and Candy. 3. Afternoon Tea.

It is hoped that the play which was postponed last spring will be presented on Dec. 5th. The November meeting will be held at the home of Mrs. Phillips with Mrs. Mackie assisting.

Kathleen H. Greene

An entertainment of Kathleen Greene's will be given the latter part of November. The exact date will be announced later.

Special Meeting of Social Credit Groups Thurs., Oct. 22nd

A special meeting of the Mossleigh, Buffalo and Arrowwood Ladies' and Men's Groups will be held at Arrowwood on Thursday, October 22nd at 8:00 p.m.

The purpose of this meeting is to elect some representatives for each group, so that they will be represented at the Constituency Association meetings for Little Bow.

A good representation is requested. E. HARR, Sec.

State Credit House

Arrowwood was visited on Wednesday last, Oct. 7th, by the Rev. Peter Dawson, M.L.A., accompanied by Mr. Smart of the State Credit House Department, Edmonton. The object of their visit was to look over all the available buildings with the view of making recommendations to the Department of Trade and Industry, as to which would be most suitable for the purpose.

They both spoke favorably when questioned as to the possibility of Arrowwood having a Credit House established here. It is now up to all the progressive merchants to get behind this and push, as it would be a sorry day for Arrowwood should it be left out in the cold because as things appear now, "Alberta Credit" will be the only kind available next spring.

Year-Round Fire Prevention

Fire prevention week has come and gone, but fire hazards are still existent. If, however, the lessons learned during the recent fire prevention week's campaign are taken to heart and borne in mind, the risks of loss of life and property from this source should be minimized, in any event for a short time until memory withers.

In a country like Western Canada, however, fire prevention week should be every week the year round, so far as the individual is concerned, and certainly from October 1, when hard stoking commences, until about April 7 when furnaces and stoves are extinguished for a short summer season. As indicated at the outset memory soon lapses, and while impressions of the importance of care and precaution in the handling of fire may be vivid during the course of a public campaign, such as accompanies an event like fire prevention week, they soon fade. Such campaigns serve a useful purpose temporarily, but whether they are effective permanently depends upon the receptiveness and retentiveness of the individual mind.

Moreover, with fire, as with everything else, familiarity breeds contempt. The continuous use of fire in the home or store, day in and day out for 24 hours of the day is apt to result in relaxation of precautionary measures against potential contingencies. This coupled with increasing impairment and declining efficiency of equipment the cold winter months drag towards a close, combine to enhance the hazards of loss from conflagration.

These observations are inspired by the facts which statistics of Dominion and provincial authorities and fire insurance companies and newspaper stories record.

Despite the annual campaign which is carried on with much vigor and great publicity by these combined forces in an effort to instill precaution in the public mind, the fire demon continues to take a terrible toll of life and property in this Dominion.

When it is reported that on the average, every day in the year one life is sacrificed and more than one person injured by fire and \$110,000 worth of property goes up in smoke in Canada, the phrase "terrible toll" assumes definite significance and gives graphic portrayal to the adage which says that "fire is a good servant but a bad master."

A daily loss of property of \$110,000 is equivalent to approximately \$40,000,000 a year. The enormity of this sacrifice to the fire god can be better appreciated when it is pointed out that the figure is a close parallel to the Dominion government's contribution under relief legislation in each of the years 1931 and 1934, the two years in which federal expenditures for this purpose reached a peak since the depression started. In 1931 the federal government's relief bill amounted to \$42,716,715 and in 1934 it was \$36,930,144, according to the Dominion Bureau of Statistics.

In other words, the people of Canada, on the one hand, are destroying annually \$40,000,000 of property as a result of their carelessness in handling fire and on the other hand, are in heavy unemployment, and are receiving approximately the same amount for relief of unemployment, through federal taxation channels.

Much concern has been shown and is being shown over the large sums which the federal government has had to pay out in its efforts to grapple with the loss occasioned by unemployment and industrial and agricultural depression. Figures of expenditures for this purpose and articles dealing with various phases of the cost of unemployment and depression have been published almost daily during the past few years, yet little is heard of the equally heavy loss occasioned by fire, except once a year when the annual fire prevention campaign is in progress.

And yet this heavy loss is more easy to cope with than the unemployment and relief problem. All that is required is the exercise of the same care the year round as that which people display in the handling of fire during fire prevention week when the subject is fresh in their minds. It is not necessary to recapitulate here and now the seasons which have been taught during fire prevention week, the precautions which must be taken to ensure that loved ones will not be burned to death or maimed for life and to prevent the destruction of homes, barns or other buildings and furniture. If only people will train themselves to remember and practice these precautions and to maintain vigilance the year round, this tremendous toll of life and property can be reduced almost to zero.

Ideals Of The League

Hon. R. B. Bennett Voices Appeal

On Behalf Of League Support
Hon. R. B. Bennett, Canadian conservative leader, told an Australian service club that the British Dominion must support any agency whereby the collective power of mankind prevailed against those threatening annihilation of the civilized world.

Bennett voiced a fervent appeal on behalf of the ideals of the League of Nations. "Because there has been a failure to realize the fullest hopes for the League, we cannot discard it in its entirety," Mr. Bennett said. "I refuse to believe Napoleon's maxim that God is on the side of the heaviest battalions."

The former Canadian prime minister said that while human nature had defeated the hopes for the League as enunciated by Aristide Briand, the ideal remained. "Although the League lamentably failed to express punitive power against an offending nation, the world must try again," he said that the British Dominion must support the League to this end.

Mr. Bennett asked Australians not to consider Canada as an appendage of the United States. The choice of our nation laid down their lives on the fields of Flanders in British youth and Canada has no less than any other nation exercises austerly or provides its protection. We are proud of our place in the British and conscious of our responsibility as being midway between Europe and Asia."

Food Faddists

Freak Diets Tended A Starvation Course By American Doctor

The "freak diets" of the food faddists were termed a starvation course by "physical destruction" by Dr. Milton Bridges, diet expert of Columbia University.

"There does not exist any fruit, meat, fish or other food which in itself is capable of reducing physical weight as much as 1,000th of a pound," he said in an address.

If there is one general appendage in the North American diet today, he added, it is lack of protein. Middle-aged persons in particular are inclined to be anemic, because they eat to eat enough meat, eggs, cheese, fish and gelatin.

It is about time some of our old ideas were exploded," he said.

"The efficacy of fish as a brain food, lettuce to produce sleep, onions to cure a cold, parsley to increase fluid output, broth for strength, port wine and rusty nails for blood building, celery to soothe the nerves, shrimp and bananas for reducing, and last but not least, an apple a day to keep the doctor away, have all been proved without foundation."

SELECTED RECIPES

DUTCH APPLE PIE

5 or 6 tart apples
1 cup brown sugar
1 cup cream
Fruitful Flour pastry
1/2 teaspoon cinnamon or nutmeg.
Method: 1. Pare apples, core, cut into eighths and arrange evenly in double plate lined with pastry. 2. Pour cream over apples and sprinkle sugar and spice on top. 3. Bake in moderate oven 350 degrees for 30 minutes, or until apples are tender.

Just The Thing

Her newly elevated ladyship had just been introduced to a notable elocutionist, who had kindly volunteered to entertain the children at a local charity garden fete.

"It is nice of you to say you will entertain the children, Mr. Duntongreen. How shall I introduce you?" "Well, your ladyship, I usually rely on extempore."

"Oh, Extempore?" she guessed. "I know of no piece more appropriate."

Could Not Accept Gift

Horse Offered To King Edward Had To Be Bought

The borough of Salford in Lancashire, England, offered the king as a gift a chestnut gelding called Cherry Grove, bought two years ago for the chief constable. Cherry Grove stands 16 hands high.

It is against etiquette for royalty to accept gifts outside their own immediate circle.

But the Duke of Beaufort, master of the horse, inspected Cherry Grove and bought him for £150 (\$750). Henceforth he becomes the king's charger.

Important To Doctors

Science Has Taken X-Ray Movies Of Human Body

The first successful X-ray motion pictures of the organs of the body in action were shown before the American Roentgen Ray Society in Cleveland. The movies, made with an amateur motion picture camera, were of a fluoroscopic screen used by physicians to see the X-rays pass through the body, satisfy a wish which many medical men have had for years.

Dr. William H. Stewart, Dr. William J. Hoffman and Dr. F. H. Chisholm of the Lenox Hill hospital of New York, presented the development with the comment that it is "probably destined to become an important division of Roentgenological investigation and diagnosis" as well as in teaching and other uses.

They observed a human heart beating, a throat swallowing food, a stomach and part of the small intestine digesting food, the lungs inflating and a diaphragm falling and lifting in the rhythmic process of breathing.

British Trains Punctual

The London, Midland & Scottish Railway has just set an enviable record for punctuality. A return issued at Euston showed that out of a total of 74,098 express and local passenger trains run within a recent four-week period 262,968, or 96 per cent, arrived at their destination on time.

A five-ton truck in England recently was driven 100 miles with solid fuel made from coal. An estimated fuel saving of 60 per cent was recorded.

Gold Production Gains

Greatly In History

Gold production in Canada during July, 1935, advanced to 319,005 ounces compared with 316,670 ounces in June and 285,768 ounces in July of last year. Production during the first seven months of 1935 totalled 2,067,014 ounces, an increase of 15.5 per cent over the corresponding period of 1934. The price of gold during July averaged \$34.91 per ounce, in Canadian funds, and valued at this price the Canadian output during the month was worth \$11,153,920.

Gold production in Canada during 1935 was the greatest in her history, both in amount and value. The output every month so far this year has been greater than in the corresponding month a year ago, and all indications point to a new high production record for 1936.

World-Hiker Paralyzed

Son Of Famous Explorer May Never Walk Again

John Carveth Wells, son of the famous explorer and who walked around the world in two years, may never walk again. At 25 he lies paralyzed in St. Pancras Hospital in London. After a gray and colorless life John Wells started a motion picture publication in London. He planned to collect the news of the advertisements, and printed it himself. For months he worked from 8 a.m. to 4 p.m. One day he collapsed in his office. Within 36 hours he could not move any part of his body. He has recovered the use of his hands and his head. Courage and determination have brought him through, and he declares he will not give up the fight to walk again.

Would Reduce Accidents

More than 7,000 lives could be saved yearly through adequate illumination of major trunk arteries between cities, Paul H. Goodell, chairman of the street lighting committee, reported to the joint annual meeting in Toronto of the American Society of Municipal Engineers and the International Association of Public Works Officials.

The earliest known date inscribed upon what is known as a "grandfather's clock" is 1681.

There are only two classes, those who wish they had enough to eat and those who wish they hadn't eaten so much.

Last of three motor parties visiting Canada this year, 14 British automobilists arrived recently at Quebec on the Empress of Britain. The motorcade under the organizer Graham Lyons, drove from Quebec to Montreal and will visit Ottawa, Toronto, London, Detroit, Cleveland, Washington and New York.

-- SIGHTLESS --

There are a few notable instances of men and women who, deprived of their sight, have triumphed over the greatest of physical handicaps, and built up a profitable business. But their number is small.

The last census reported that of the 7,352 blind people in Canada, only 572 were gainfully employed. The great majority of the sightless are unable to earn their own living. They must depend on assistance from relatives or charity. They do not qualify for any special pension or relief rights. Our various governments give small grants to the Institute for the Blind and let it go at that.

During the last session of parliament, efforts to provide pensions for sightless people at the age of forty failed.

What of other countries?

Great Britain pays ten shillings a week to every blind person of fifty years and over.

Australia pays 20 shillings a week commencing at the age of sixteen.

New Zealand, seventeen shillings and sixpence plus twenty-five per cent of the blind person's earnings, up to a maximum payment of £3.12.6, commencing at age twenty.

Sweden pays \$125 a year.

Japan gives the blind a monopoly of the massage business.

Russia maintains special factories.

In the United States, thirty states pay pensions varying from small sums to \$1.00 a day. California pays \$50 a month; New Hampshire, \$600 a year. And the Federal Government contributes fifty-fifty with the State up to \$15.00 a month.

Necessary as curtailment of public spending it, the blind have a claim upon us that cannot be denied. The new parliament should see to it that Canada is included among the nations accepting responsibility for the care of the sightless.

The loss of which will deprive you of the ability to earn and make you wholly dependent on others for your existence.

Our Service is reasonable, and we keep in touch with those who have entrusted the safe keeping of their sight to us.

Policyholders Own the "Assets" of Life Insurance Companies

As a great co-operative enterprise, Life Insurance has built up Assets in Canada totalling, approximately, two billion dollars. Yet these Assets are relatively small when it is realized that they are jointly owned by about 3,500,000 policyholders—one-third of Canada's population.

On the average, each policyholder owns \$571 as his share of the total Assets in Life Companies operating in Canada. Obviously, the great majority of policyholders are men and women of ordinary means—thrifty people who, year by year, have entrusted to Life Insurance part of their savings so that they may have financial security against the uncertain future.

These policyholders represent the best type of Canadian citizens. They have sought to preserve their financial independence, and,

as thrifty citizens, neither they nor their dependants are ever likely to become charges upon government or municipal relief.

To protect the interests of these 3,500,000 Canadian policyholders, Life Insurance Companies have invested their Assets in government and municipal bonds—in first mortgages—in public utilities and industrial enterprises—and in other authorized securities.

The soundness of the Investment policy of the Companies has been tried and proven during periods of severe financial stress. Governing and corporate bodies in which policyholders' moneys are invested have, until recently, maintained the integrity of their obligations. This has made it possible in turn for the companies, in their capacity as trustees for the policyholders, to fulfill every obligation guaranteed by their policies.

Note, however, there is a growing tendency to repudiate, by legislation, public and private debts, regardless of the debtor's ability to pay. Legislation which tends to destroy the ownership of public and private property places an unjust burden upon life insurance policyholders.
